A student veteran planning committee has assisted with program development, meeting virtually with event staff periodically since January 2018. This committee has recommended the following objectives for this program:

1. Collective Encouragement – Michigan’s student veterans are “in this together.”
2. Personal Development – Maximizing student veteran talent is critical for the future.
3. Professional Networking – Capitalizing on veteran talent in the civilian workplace is a win-win.

Student veterans can expect:

- Complimentary registration for all participating students
- Lodging assistance program for out-of-town participants
- Expert-led personal development programming
- Productive professional networking opportunities
- Connection with peer student veteran leaders
- ... and, of course, FREE FOOD!

Student veteran organizations can also compete in a video competition to win a \$500 prize for their chapter! Find more information and register online at <https://micmve.org/for-students/>.
